

“INNOVATION FOR CHANGE: COLLABORATION, DIFFERENTIATION, FORMATIVE ASSESSMENT”

Our fall conference this year will have many featured sessions by DPI to help teachers understand the Common Core Standards in Mathematics. These National Standards are brand new to North Carolina so it is imperative for every district to have representation at this year’s conference to stay informed. It is my hope that every school will also have representation at this year’s conference so we can ensure every teacher across our state will understand how the Common Core will impact NC Mathematics Teachers. Please invite your friends and colleagues to attend the NCCTM Conference this October.

Wendy Rich, President

KEYNOTE SPEAKERS

Catherine Twomey Fosnot

Keynote Speaker for grades K-2
